

We Make
Your Business Easy

Who We Are

IBS Consultancy Services Pvt. Ltd. was established in 2004 by a group of Experienced ERP and System Consultants having varied experience in development, implementation and support works for various Govt., Public & Private sectors.

Vision

Our vision is to provide our clients with innovative software solutions and develop lasting customer relationships through operational excellence.

Mission

Our mission is to deploy innovative software solutions to non-profits, government organizations and the corporate. We aim to provide our stakeholders the highest level of service and strive to exceed expectations. We strive to establish long-term relationships with our stakeholders. These relationships enable us to develop niche markets and increase value to our clients.

We believe every organization must benefit from efficiency gains afforded by technology. We strive to tailor solutions to meet your budgets and operational needs. With that in mind, we anticipate industry and technology trends to develop software solutions in a constantly changing and competitive business environment.

Philosophy

We firmly believe in quality software driven by people with true passion and vision. Superior architecture, design and open standards are driving principles behind everything we do. We do not believe, we can succeed in the long term by locking our customers into proprietary architectures that are subject to the whims of management or changes in market conditions. We believe, you should buy the best and buy it once. Software should grow with your organization.
